

The essence of Go
reflected like a moonbeam
in every board shape

A diagram of a Go board is shown as a large, irregular, light-brown shape. In the center of the board is a smaller, light-brown rectangle with a thin red border. Above the rectangle, a red horizontal line with vertical end caps is labeled "5" in red. To the right of the rectangle, a red vertical line with horizontal end caps is labeled "2" in red.
